Resolution of Warranty Issues:

- **Repair or Replace:** We will determine, at our discretion, whether the product will be repaired or replaced.
- **Product Discontinuation:** If a product replacement is needed for a discontinued product, we will substitute a product that matches as closely as possible. In the event that a discontinued product is no longer available, every effort will be made to provide a comparable product.
- **After Warranty Expiration:**
 - After warranty expires, many products can still be repaired for a nominal charge.
 - In many cases, a repair kit with the necessary components and instructions is available for purchase from the customer. A nominal charge may apply.

Your Rights Under State Law:

This warranty gives you specific legal rights. You may also have other rights which may vary from state to state. Some states do not allow the exclusion or limitation of incidental or consequential damages, so this exclusion or limitation may not apply to you. This warranty is exclusive and in lieu of all other obligations, liabilities or warranties.

• How to adjust the tension on Cordless 2D Dual Sheer

ADJUST SHADE TENSION

Shade tension can be easily adjusted to improve the operation of

NOTE: This is a fine adjustment control. Following the instructions, turn the tensioning screw 5+ full turns to make any tension changes.

UNABLE TO RAISE / BILLOWING / DRIFTING DOWNWARD

If the shade will not raise, billows when raising, or drifts downward instead of staying in a desired position, the tension needs to be increased.

Remove the end cap on the right side of the cassette to access the tensioning screw. Turn the screw to the LEFT (counter-clockwise) to increase tension for stronger pull/increased hold.

(609) 742-1720

DRIFTING UPWARD / RAISING TOO QUICKLY

If the shade drifts up or continues to raise after being positioned, the tension needs to be decreased.

Turn the screw to the RIGHT (Clockwise) to decrease tension, lessening the strength of the spring.
