THE PORTFOLIO COLLECTION DUAL SHEER SHADES

Call for current pricing
(609) 742-1720

The Portfolio Collection's Dual Sheer Shades include beautiful top-down/bottom-up shade materials. Find the perfect light solution for every kind of space.

Dual Sheer Shades offer the ultimate in privacy and light control. The shades can be opened or closed to your preference. Align the fabric bands to let light through, or close the bands for privacy and shade. Fully raise the shades to enjoy the view.

Shades are available in wide widths with fabrics up to 108" or more. Choose from view-through preferences with band heights ranging from 3" – 10" to match your style.

Shades come standard with clutch control. Choose cordless or remote control motorization options for cord-free lift. All dual shades are available in a cassette that is available with a rounded or square profile. A perfect finishing touch.

All room-darkening fabrics require a large bottom bar.

ABOUT DUAL SHEER

SHADE CARE AND CLEANING

Dual Sheer Shades are decorative in nature and are made using polyester fabric. They should not be treated with harsh chemicals.

When dusting is required, use something gentle. We recommend a vacuum with a soft brush attachment.

Light steaming may be used in the event of wrinkles. Please be sure the steamer is at least 6" away.

If spot cleaning is required, use only water or a very mild detergent. Do not over-saturate, as this may cause the fabric to shrink, leave water spots, or alter the color of the fabric.

PATTERN MATCHING AND SIDE BY SIDE SHADES

Fabric band matching is available for shades ordered in the same fabric and color. Please note, matching is only available for shades of the same length.

When ordering, be sure to note that shades are side by side.

Please note, remakes for side by side shades can not be promised with the same fabric and color. In the case of ordering mistakes, we will provide a standard 20% "Oops Discount" for all shades on the order that require a remake.

Call for current pricing
(609) 742-1720

SHADE APPEARANCE

Because of their construction and fabric, Dual Sheer Shades may show some wrinkling or creasing.

It is important to ensure shades will be installed to a level mounting surface. All provided brackets must be installed and evenly spaced.

This is especially important for shades wider than 95".

SHADE OPERATION

Open the fabric bands to allow light into the room.

Close the bands for privacy or to reduce glare.

Raise the shade to allow full light and enjoy the view.

CASSETTE OPTIONS

Dual Sheer Shades come standard with a rounded or square cassette.

Rounded cassettes will include a fabric insert. Square cassettes come for a surcharge.

Available in 5 colors: white, beige, gray, bronze, and black.

Rounded Cassette
with fabric insert (standard)

Square Cassette
unwrapped (standard)

White

Beige

Gray
cassette and cord colors

Call for current pricing
(609) 742-1720

BOTTOM BAR OPTIONS

Bottom bar color will match the cassette.

Clutch and motorized shades come standard with an unwrapped round wrapped for a surcharge.

Cordless bottom bars have a rounded shape and come standard unwrapped for a surcharge.

Rounded Bottom Bar
unwrapped (standard for clutch and motorized)

Square Bottom Bar
unwrapped (standard for clutch and motorized)

SHADE CONTROL

CLUTCH CONTROL SHADES

Standard control is clutch with plastic beaded chain in 5 colors: white, beige, gray, bronze, and black. Cords are color coordinated to match cassette color.

Cord loops come in standard sizes. The size closest to $\frac{3}{4}$ length of shade is standard. A different size may be selected for no additional charge.

Custom length metal bead chain is available as a surcharge option.

Compliant cord tensioners are provided with clutch control shades. Cord tensioners secure the cord loop to the wall or window. They must be installed for the shade to be compliant with safety regulations and to operate properly.

Call for current pricing
(609) 742-1720

CORDLESS SHADES

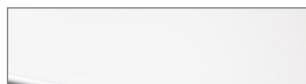

Cordless shades can be set to an exact position by raising or lowering the bottom bar. All cordless shades will include a handle, which can be pulled when lowering the shade.

Fabrics noted with * on the Materials Table are not available to order with cordless control.

Cordless bottom bar can be fabric wrapped for a surcharge.

Lift Assist pole is available to help raise and lower cordless shades. Pole telescopes to 53".

Note: Cordless shades use a different bottom bar than available for clutch or motorized shades. See page 7 for details.

MOTORIZED SHADE CON

PRO WAND SHADES

Pro Wand shades are powered by a rechargeable battery motor and a operated using a wand, which hangs to the side of the shade.

Pro Wand is a good alternative to cordless when the window or shade makes it hard to raise or lower the shade.

Charging port for the motor battery is located on the bottom of the wa

Wand is only available in White.

4 available wand lengths: 24", 36", 48", and 60".

LIMITED LIFETIME WARRANTY

This product is warranted against defects in materials and workmanship, provided that:

1. The product was installed according to the product instructions.
2. Manufacturer recommendations were followed regarding limitations and specifications.

Manufacturer reserves the right to determine if your shade warrants a repair. Manufacturer will replace your shade with a new shade of equal or superior warranty.

This Limited Lifetime Warranty excludes all motors, controls, and accessories from the date of purchase. Failure to follow the proper installation, charging motors, remotes, wands, and hubs.

This Limited Lifetime Warranty applies only to the original retail purchaser with proof of purchase.

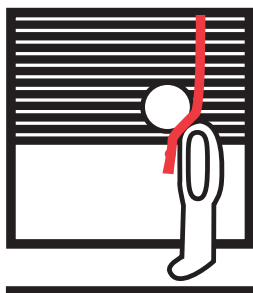

This Limited Lifetime Warranty does not cover the removal or installation of cordless shades. This Warranty does not cover damage or defects caused by, or resulting from improper use, misuse, and tear, abuse, neglect, accidents, alteration, commercial use, installation, removal, or moisture.

YOUR RIGHTS UNDER STATE LAW

These warranties give you specific legal rights. You may also have other rights that vary from state to state. In the event of a claim, Manufacturer shall be liable for incidental or consequential damages caused by the product, but not for cost, expense or fee. Some states do not allow the exclusion or limitation of damages, so the above limitation or exclusion may not apply to you. These warranties are exclusive and may be subject to disclaimers, or warranties.

⚠️ WARNING ⚠️ ADVISORY

Window Blind Cord Strangulation Risk

Window blinds with a damaged or loose tension device pose a strangulation risk to children. To avoid this risk, consider purchasing cordless products with inaccessible cords.

Riesgo de Estrangulamiento en Persianas

Las persianas con un dispositivo tensor suelto o dañado representan un riesgo de estrangulamiento. Para evitar este riesgo, considere comprar persianas sin cuerdas o con cuerdas inaccesibles.
