HOBBLED SHADE STYLE

HOBBLED SHADE STYLE

Hobbled shades are made with extra fabric to give them the look of a roman shade even when full.

Hobbles will show between 9" and 12" when the shade is down.

Hobbled shades are made without ribs which provide additional support when the shade is down.

Hobbled shades are only available in vertical pleats.

NOTE: Hobbled shades may require extra fabric.

Valances can be specified in length

Standard (*IB and OB shades*) and Extra Standard depth returns are made to are made slightly deeper than the head and the back of the return.

PANEL ALIGNMENT

TOP / BOTTOM PANEL ALIGNMENT

Top and bottom panel alignment are available.

TOP PANEL ALIGNMENT

We recommend ordering top panel aligned shades for most installation

- Shades that are the same height in side-by-side windows.
- Shades that are differing heights in side-by-side windows where the top panel is aligned.
- Shades that are not installed side-by-side.

Top panel aligned shades will be made with the first row of rings and/or

Top panel aligned shades will have a shade apron that is between 4" and

BOTTOM PANEL ALIGNMENT

We recommend ordering bottom panel aligned shades for:

- Shades that are differing heights in side-by-side windows where the bottom panel is aligned.

Bottom panel aligned shades will be made with the last row of rings and/or

Bottom panel aligned shades will have a top fold that is between 4" and 6". If uneven top folds are a concern, we recommend ordering standard shades.

SHADE WITH LIGHT-FILTERING LINER

SHADE WITH BLACK-OUT LINER

VALANCE RETURNS

Valance returns attach to the sides of the head rail and cover shade components.

All valance returns will be made with an L-shaped connector which attaches the return in place, creating a clean, finished corner.

Outside mount shades are recommended to be ordered with valance returns. Outside mount shades are available free of charge if requested at the time the order is placed.

The standard size for valance returns is 4½". Returns in the standard size in the return. Longer returns can be ordered, but the molded insert will still not be fabric only, which may result in a softer corner finish.

Standard (*IB and OB shades*) and Extended (*OB shades only*) depth returns are the depth of the head rail. Extended depth returns are made ½" deeper than the depth between the wall and the back of the return.

See chart below for return specification details or diagrams on page 20.

^[1] Standard shades ordered with Clutch or Pro Wand control will have control side fabric deduction which are in addition to the deductions listed for returns.

^[2] Inside mount shades will have a ¼" overall width deduction, which is in addition to the deductions listed for returns.

CONTROL OPTI

CORDLESS SHADES

Standard Control.

Cordless shades operate with no lift cords on the front of the shade. They are raised and lowered by pulling on the hem bar located behind the bottom panel of the shade.

Cordless shades will be supplied with a clear hem grip that attaches to the hem bar.

A spring control system located under the wooden head rail holds the shade in place at any desired position.

HEM G

Call for current pricing
(609) 742-1720

TOP-DOWN BOTTOM-UP

Standard shade style only; Knife Pleat panel style only.

Raised from the bottom or lowered from the top.

To conceal shade components, shades will be finished with a black-out lined front valance and a back valance. Back valance will match shade material for unlined shades or liner material for lined shades.

NOTE: Inside Mount TDBU shades are not available to be ordered with returns. For installations where returns are required for inside mount TDBU, follow the recommendation below:

Order shades as outside mount with returns. Shades should be ordered 1" narrower than the required width. This will leave a $\frac{1}{2}$ " gap on either side for the shade fabric, and the valance will be $\frac{1}{4}$ " wider on either side to create a clean corner with the returns. This will cause light gaps on the sides of the shade, and the factory will not take any additional deductions.

Call for current pricing
(609) 742-1720

CLUTCH CONTROL SHADES

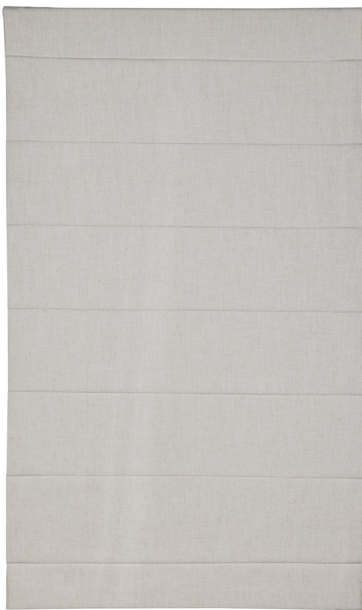

Clutches provide an assisted lift on large shades.

Clutches come standard with metal chain loops. Chains can be specified in be supplied at $\frac{2}{3}$ of the shade height.

Compliant cord tensioners are provided with clutch control shades. Cord to window. They must be installed for the shade to be compliant with safety r measuring for clutch shades find a suitable location for the cord tensioner

Standard shades with valances that are ordered with a clutch come “clutch from interfering with the loop. This means the shade fabric will be more ne to the side of the shade. This may cause a light gap on black-out shades.

Waterfall shades without a valance ordered with clutch controls will have c to be ordered as clutch adjacent.

MOTORIZED CON

PRO WAND SHADES

Pro Wand shades are powered by a rechargeable battery motor and are operated by pressing the buttons on a wand handle, which hangs to the side of the shade.

Pro Wand is a good alternative to cordless when the window or shade size makes it hard to raise or lower the shade.

USB charging port for the motor battery is located on bottom of the wand handle.

Wand is only available in White.

4 available wand lengths: 24", 36", 48", and 60".

Motorized shades are mounted on a deeper head rail (see Specifications for details).

Shade fabric will be made narrower than the ordered width on the control side, allowing the wand to hang on the side of the shade. This may cause a light gap on black-out shades. Fabric will be $\frac{3}{4}$ " narrower on the control side for shades without returns and 1" narrower on the control side for shades with returns.

Not available to be ordered with waterfall or hobbled shade styles.

FABRIC ROMAN SHADE

LIMITED LIFETIME WARRANTY

This product is warranted against defects in materials and workmanship, provided that:

1. The product was installed according to the product instructions.
2. Manufacturer recommendations were followed regarding limitations and specifications of the product.

Manufacturer reserves the right to determine if your shade warrants a repair or partial replacement with a new shade of equal or superior value. This shall be your sole remedy under this warranty.

This Limited Lifetime Warranty excludes all motors, controls and accessories, which are warranted separately. Failure to follow the proper installation, charging and use instructions will invalidate the warranty.

This Limited Lifetime Warranty applies only to the original retail purchaser with proof of purchase.

This Limited Lifetime Warranty does not cover the removal or installation of original or replacement shade or damage or defects caused by, or resulting from improper maintenance, neglect or improper use, use, installation, removal or reinstallation, or exposure to excessive moisture.

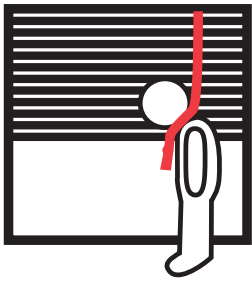

YOUR RIGHTS UNDER STATE LAW

These warranties give you specific legal rights. You may also have other rights which may vary from state to state. These warranties do not limit or exclude incidental or consequential damages or for any other direct or indirect damage, loss, cost, expense or reimbursement of incidental or consequential damages, so the above limitation or exclusion may not apply to you. See your state's laws for more information on obligations, liabilities, disclaimers, or warranties.

THE PORTFOLIO COLLECTION FABRIC ROMAN

⚠ WARNING ⚠ ADVISORY

Window Blind Cord Strangulation Hazard

Window blinds with a damaged or loose tension device pose a strangulation risk to children. To avoid this risk, consider purchasing cordless products with inaccessible cords.

Riesgo de Estrangulamiento en Persianas

Las persianas con un dispositivo tensor suelto o dañado representan un riesgo de estrangulamiento. Para evitar este riesgo de estrangulamiento, considere comprar persianas sin cuerdas o con cuerdas inaccesibles.
