Features & Benefits

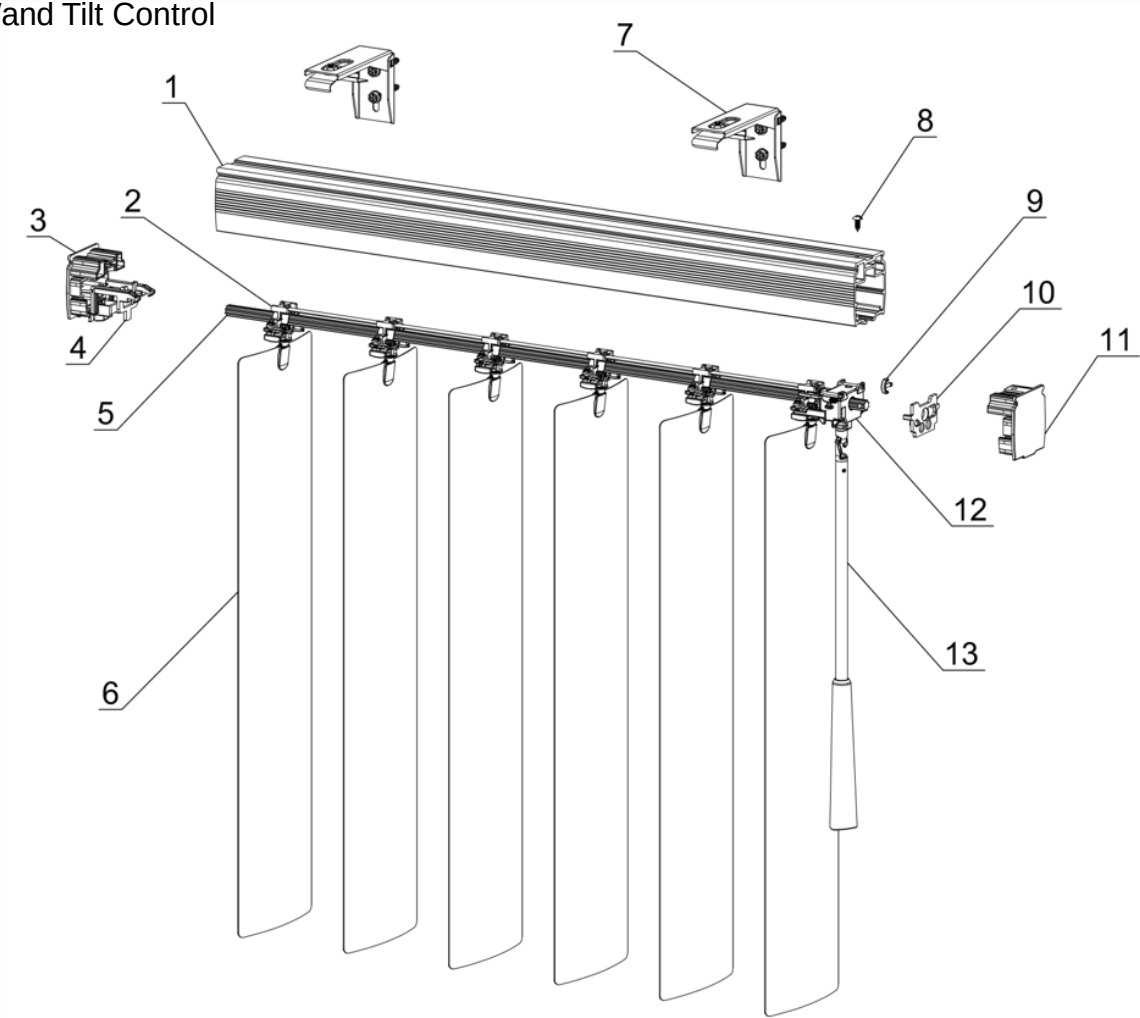

- The valance-free design is sleek, fashion forward and modern; eliminating the need for additional top treatments
- Symmetrical/reversible PolyDeco headrail reduces installation time and ensures trouble-free performance
- Great for Inside Mount applications, offering fully flushed installation without need for additional light blocking valances
- Modern colors and textures enhance any room while providing reliable quality
- Cordless design is child/pet friendly
- Certified NFPA 701 for flame resistance
- Alternative S-Curved selection offers a tighter closure while adding an elegant drapery-like look
- Coordinate vertical and horizontal applications in select colors from SmartPrivacy™ Faux Wood Blinds

Terminology & Control System

Synchrony™ Vertical Blind Wand Tilt Control

No.	Description	No.	Description
1	PVC Head Rail	8	#5 3/8" Round Screw
2	Carrier	9	Ring Block
3	End Cap Set	10	Center Support (For blind width $\geq 78"$)
4	End Cap Hook	11	End Cap
5	Rotate Rod	12	Tilter
6	Vane	13	Wand Set
7	L Bracket Assembly		

General Specifications

Size Limitations

Single Blind		
	Width	Height
Min	18"	36"
Max	100"	108"

Standard Deductions

Inside Mount:

Finished Blind Width = Order Width – 3/8"

Finished Blind Height = Order Height – 3/16"

Outside Mount:

No Deductions

Recommendation: Add 1 ½" on all 4 sides (width and height) respectively to minimize light leakage.

Tolerance:

Finished blind width (net) may vary $\pm 1/16$ "

Finished blind height (net) may vary between -1/8", and up to +0"

Control

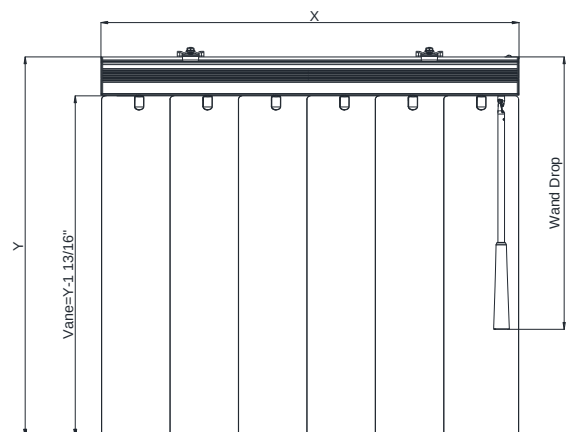

- Control System: Wand Tilt
- Location: Headrail is reversible upon installation (Left/Right)

Wand – Standard Drop Sizes

- The standard wand drop is measured from the top of the headrail to the bottom of the wand grip.
- There are 3 wand sizes available as the default, or as an option.
 - 34", 49" & 61"

Blind Height (Y)	Wand Drop Size
$Y \leq 84"$	34"
$84" < Y \leq 96"$	49"
$Y > 96"$	61"

*wand drop tolerance: $\pm 1/2$ "

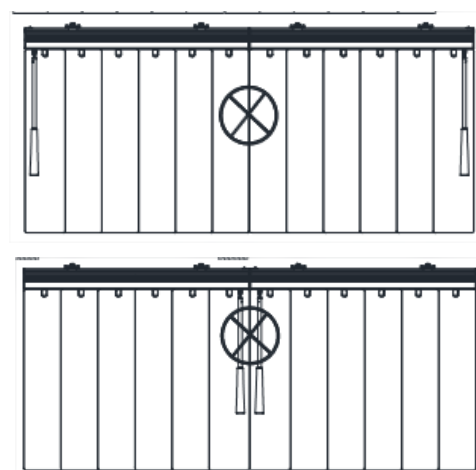

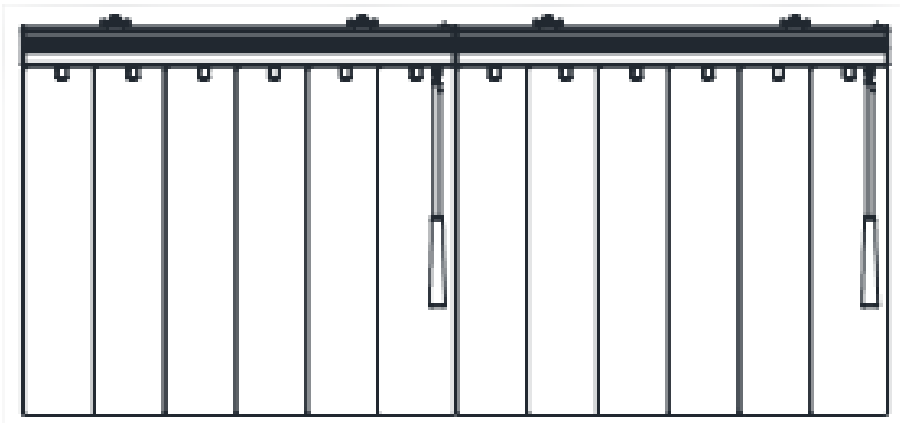

General Specifications

Side by Side

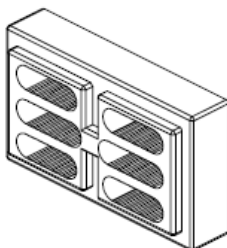

When butting two blinds together to reach the desired width, both blind must be installed with the same wand orientation. Both blinds should be stacked LL or RR. Do not butt a stacked left and stacked right together to create a center opening as the meeting vanes will interfere with each other during operation.

This is not an option in an order entry. Please order multiple single blinds with the same orientation to cover larger windows.

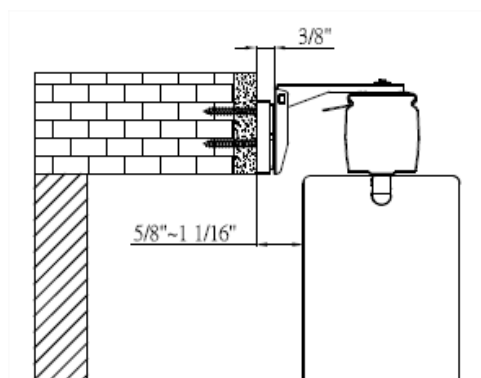

Shims (Optional)

- Ideal for projecting the blind further out to provide adequate clearance when mounted above a trim or molding.
- If shims are required, we recommend ordering one shim for each installation bracket as a minimum.
- Provides 3/8" extension from wall, or stack 2 shims together to achieve 1 11/16" total extension from wall.

Plastic shim

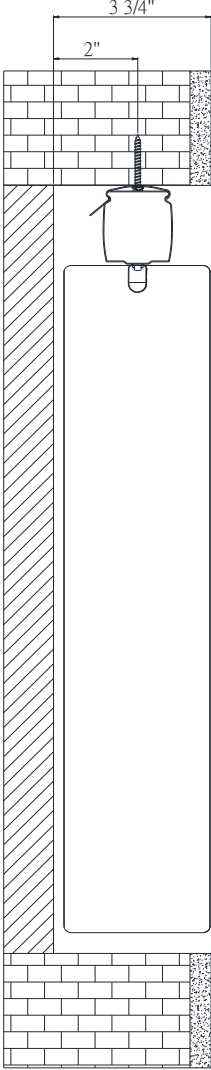

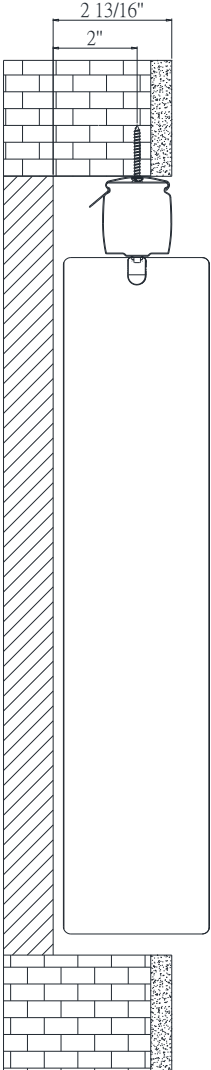

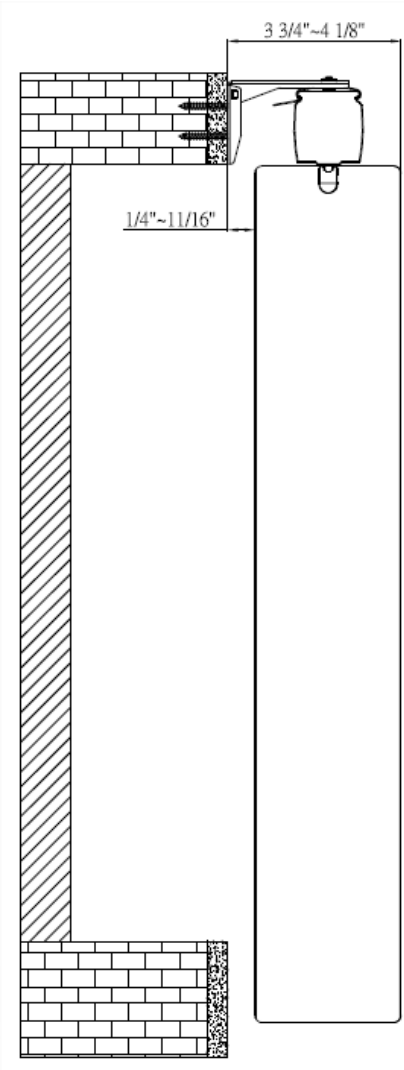

General Specifications

Even Vane Spacing

For even spacing between slats, it is recommended to select from the following order widths. Other custom order widths are available but may result in slight overlap when the blind is closed. This table applies to OB blinds only.

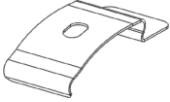

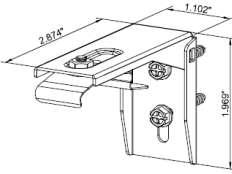

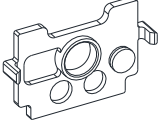

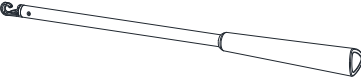

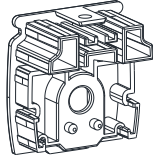

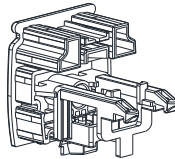

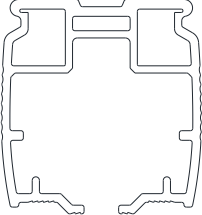

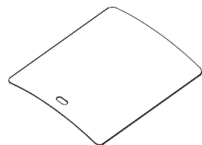

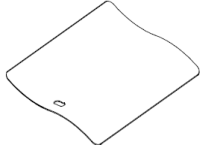

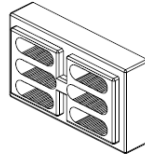

Slat / Vane Qty	OB Blind Width (")
6	19 3/8
7	22 5/8
8	25 3/4
9	28 7/8
10	32 1/8
11	35 1/4
12	38 1/2
13	41 5/8
14	44 7/8
15	48
16	51 1/8
17	54 3/8
18	57 1/2
19	60 3/4
20	63 7/8
21	67 1/8
22	70 1/4
23	73 3/8
24	76 5/8
25	79 3/4
26	83
27	86 1/8
28	89 1/4
29	92 1/2
30	95 5/8
31	98 7/8
32	100

Mounting Requirements & Stack Back

Fully Flushed Inside Mount	Semi-Inside Mount	Outside Mount
Min Mounting Depth: 3 ¾" 	Min Mounting Depth: 2 13/16" 	Total Projection: 3 ¾"~4 1/8" 

Blind Width	Estimated Stacking Width
20"	2 13/16"
36"	5 3/16"
47.875"	6 5/8"
66"	9 7/16"
78"	11 5/16"
100"	15 1/8"

Parts & Hardware

Description	Drawing	Notes
Installation: L Brackets + Mounting Clip	  IM Installation: Mounting Clip OM Installation: L Bracket with Mounting Clip	The actual adjustable distance for L bracket installation is 0.394".
Center Support		Used to support headrail widths that are at least 78" or greater
Steel Wand		Auto-aligning design corrects misaligned louvers.
Headrail End Caps with Pushing Arms	  Tilt side Non-tilt side	Assists the rotating light block privacy flap
Symmetrical PVC Head Rail		Reversible, valance-free decorative headrail
Vanes	  Curved (Traditional) S-Curved	Exclusive S-Curved Collection offers tighter closure and elegant drapery-like look
Shim (Optional)	 Plastic shim (3/8")	- Available for OM only 3/8" thickness (Plastic) - Option to stack for a thicker extension

Blind Width (X)	L Bracket / Mounting Clip Qty	#8*1 1/4" Screw Qty

Additional Color Information

Hardware Color Coordination Override

The headrail, wand and other components will be provided in one of 4 default colors. White, Silk White, Nature or Silver Moon can also be selected as an option to override the default color coordination.

Color on Back

Some vanes are made with a neutral, white backing for a pleasant street side view, while others are produced with the same color on the front and back.

Classic, S-Curved, Sandblasted collections, and the **Pure White** color in all collections are the same color front and back.

All other collections will have a neutral back.

Product Care

Maintaining Synchrony™ Vertical Blinds

Routine cleaning will help maintain the beauty of your blinds.

Proper ways to clean Vertical Blinds:

- Maintenance: Use a cloth or duster to remove any light dust.
- Deep Clean: Use a damp cloth to wipe away additional buildup. Wrap cloth around vane starting from the top, working your way down to the bottom.
